Forest Management & Certification
SFI Board Member

SFI TERRITORIAL ACKNOWLEDGEMENT

The Sustainable Forestry Initiative's diverse team of staff and consultants live and work on the ancestral territories of many Indigenous nations. As we all actively participate in this conference in the beautiful location of Madison Wisconsin, it is worthwhile to reflect on this region's rich history and legacy.

We respectfully acknowledge that we are on the traditional territory of the Ho-Chunk Nation, the People of the Big Voice, which they have always self identified as.

An aerial photograph of a lush green forest with a winding river or stream cutting through it. The trees are dense and vibrant green, and the water is a dark, calm blue. The overall scene is peaceful and natural.

**Sustainably managed
forests help address
global sustainability
challenges.**
