

## THE ACTIONS WE TAKE TODAY DETERMINE THE FUTURE OF OUR FORESTS

The Sustainable Forestry Initiative (SFI) improves quality of life in Texas by ensuring the health and future of forests — because forests affect us all. The SFI Forest Partners® Program strengthens and grows the link between landowners, brand owners and markets. The program is designed to increase certification to SFI standards for forest management, chain of custody and fiber sourcing.

### WHY CERTIFY?

- PROOF POINT OF ENVIRONMENTAL LEADERSHIP
- MARKET ACCESS
- CREDIBILITY
- SOCIAL LICENSE TO OPERATE
- COMPETITIVE EDGE
- APPEAL TO INVESTORS
- INTERNATIONAL RECOGNITION
- COMMUNITY & CONSERVATION OUTREACH

## **FOUNDERS:**

Working with the Forest Partners
Program helped us weave SFI into our
strong set of stewardship principles, which are
focused on sustainable forest management.
The end result is a holistic approach to forest
management that greatly enhances our capacity to
reduce risk and generate both environmental and
financial benefits."

#### MARK T. SEAMAN

President and Chief Investment Officer, Timberland Investment Resources

#### SFI FOREST PARTNERS PROGRAM

Four market leaders – Time Inc., the National Geographic Society, Macmillan Publishers and Pearson – founded the SFI Forest Partners Program. The lasting commitment of these market leaders is increasing the source of certified forest products. Certification to SFI standards is helping to safeguard environmental values, support sustainable communities and expand market access.

# GROWING THE LINK BETWEEN LANDOWNERS, BRAND OWNERS AND MARKETS

**PROVIDING INCENTIVES** for smaller and medium sized mills and forest landowners to choose certification to SFI standards.

**OVERCOMING BARRIERS** to certification with expert, cost-effective solutions.

**CONNECTING MARKETS** to landowners and mill operators through certification.

#### **TEXAS**

SFI has a strong working presence in Texas with nearly two and a half million acres certified and an active SFI Implementation Committee. And while Texas is growing, demonstrated by positive trends that include BMP compliance and forest certification, there is still lots of opportunity to gear up for current and future marketplace shifts that are increasingly favoring certified products. That's

why the SFI Forest Partners Program is now making it easier for forest products companies and landowners in Texas to certify to the SFI Standards. By providing information, tools and regional expertise for smaller, family-run businesses and mediumsized landowners to develop the appropriate certification system for

their situation, SFI Forest Partners Program is helping landowners and mill operators take advantage of becoming certified. With the support of SFI's Forest Partners, this approach produces a unique and cost effective opportunity to enter certified forest product markets globally.

With 26 million people, and 167 million acres in Texas, you get the idea that you can't do it by yourself. You have to have partnerships. That's why I was so pleased when [SFI] asked me to come and address you and visit with you, because relationships matter, they matter more than anything. So you have to build relationships, you have to build partnerships, you have to have credibility and SFI does that with us.

#### **TOM BOGGUS**

State Forester and Director, Texas A&M Forest Service
