GUIDE TO SFI ANNUAL REPORTING

ABOUT THE SFI 2022 ANNUAL SURVEY

The SFI Annual Survey seeks to understand the collective impact of SFI-certified organizations. It does not take the place of an audit, where an individual organization demonstrates how they meet standard requirements.

SFI wants to understand any collective change over time. Your answers to new questions will help establish baselines ahead of SFI 2022 Standards implementation to demonstrate the impact of the new Standards. Answering 'no' to new questions is ok and expected. Or perhaps your organization already meets new SFI Standard Requirements through your own company work, and that's great.

Individual responses will remain strictly confidential, and are only used in aggregate form.

The SFI Annual Survey is a requirement of the SFI Forest Management and Fiber Sourcing Standards. Note that questions not related to standard requirements are optional

STEP 1. Login to www.sfidatabase.org/login. To set up your account, contact SFIReporting@forests.org. You can request access for multiple users.
