|--------------|-----------|
| Camping | Kayaking |
| Hiking | Campfires |
| Birdwatching | Smores |
| Canoeing | Forest |
| Fishing | Stream |
| Backpacking | Tent |

Connect the dots

Planning a forest

Healthy forests today and tomorrow

The growing cycle

As a landowner, Nathaniel has a plan to harvest and plant trees so the forest is always growing. 9

What can a tree make?

Draw a line from the tree to the products you can make from them.

Enjoying the forest

SFI Forests provide a place for outdoor activities like camping, hiking and fishing. Just being in the forest is good for your health!

Start at the forest entrance and find your way to the campsite.

Get out and be active!

There are so many fun and healthy things you can do in a forest or with the wood products they produce.

Activities

Bird watching
Planting a tree
Hiking

Tree climbing
Canoeing

Green building

Some trees are used to make houses, offices, bridges and other buildings.

Wood looks great.

Building with wood helps store carbon.

Wood is easy for builders to work with.

Using wood is energy efficient.

Draw a forest

**When forests are certified to SFI, they are grown again and again, so the forest stays a forest.
Can you add more trees to this forest?**

Sustainable forestry is good for everyone

SUSTAINABLE
FORESTRY
INITIATIVE

SFI-00001

**Hundreds of millions of acres / millions of hectares of forests in
Canada and the U.S. are certified to the SFI standard,
to make sure they will be there for everyone
today and in the future.**

SFI-00001

Did you know that North America's forests provide products that are used all over the world?
