

SUSTAINABLE FORESTRY

What Manufacturers Wish Everyone Knew

Sterling Capacity

- 325,000 cubic meters @Phoenix, IL
- 325,000 cubic meters @Lufkin, TX

Total: 650,000 cubic meters/year

That's a panel every 30 seconds!

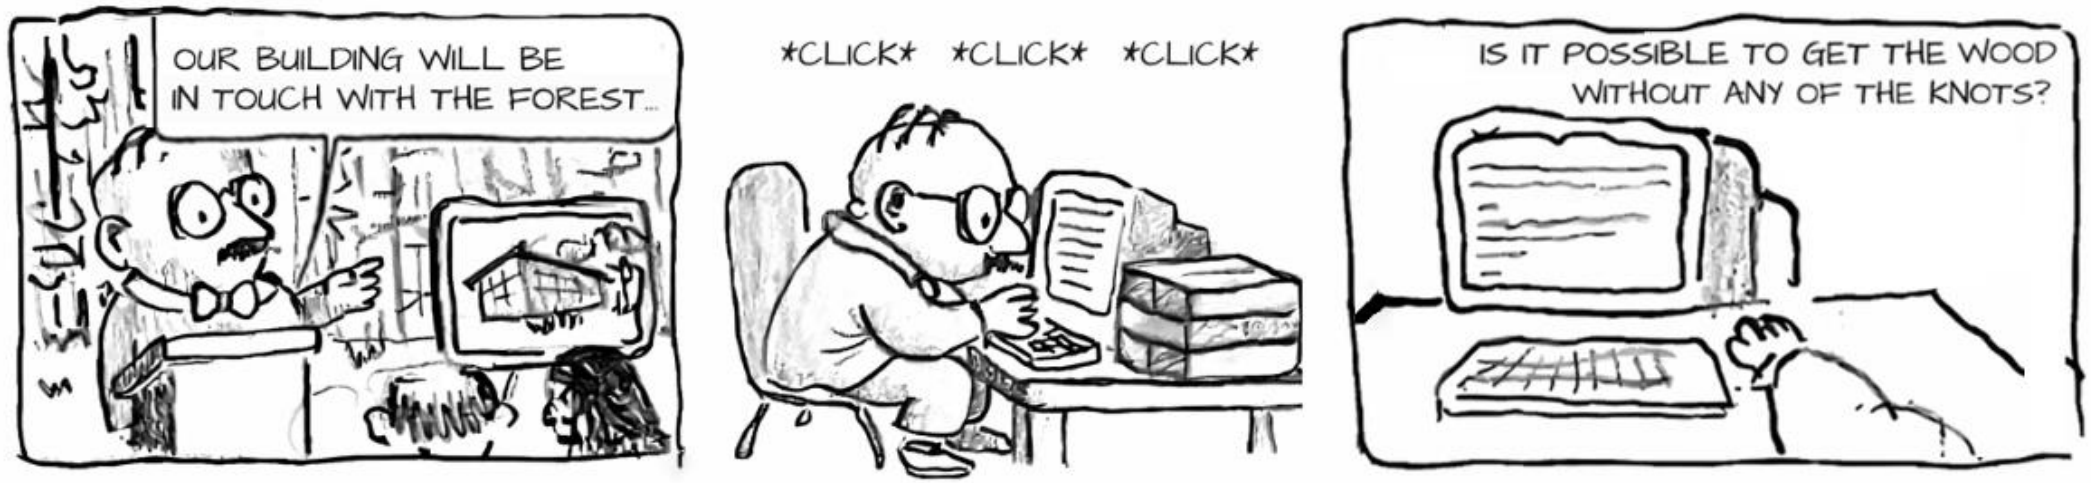

Sterling has 2-3x more capacity than the next largest manufacturer.

IS IT POSSIBLE TO GET THE WOOD WITHOUT ANY OF THE KNOTS?

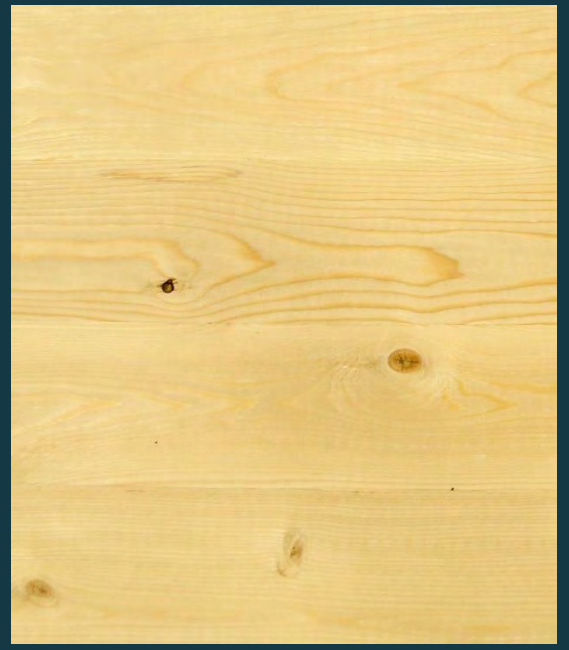

Domestic Wood Offerings

SOUTHERN PINE

SPRUCE PINE FIR-SOUTH

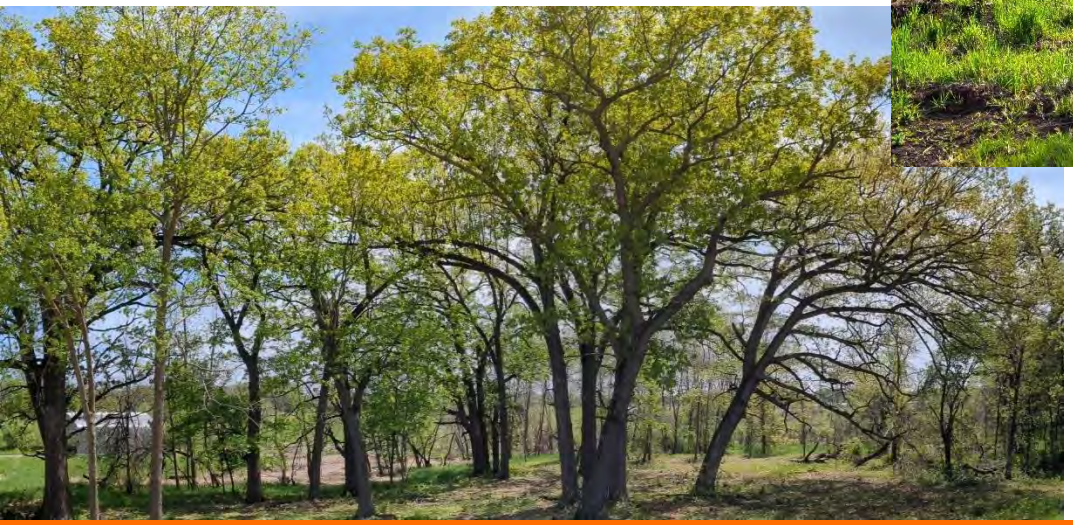

EASTERN HEMLOCK

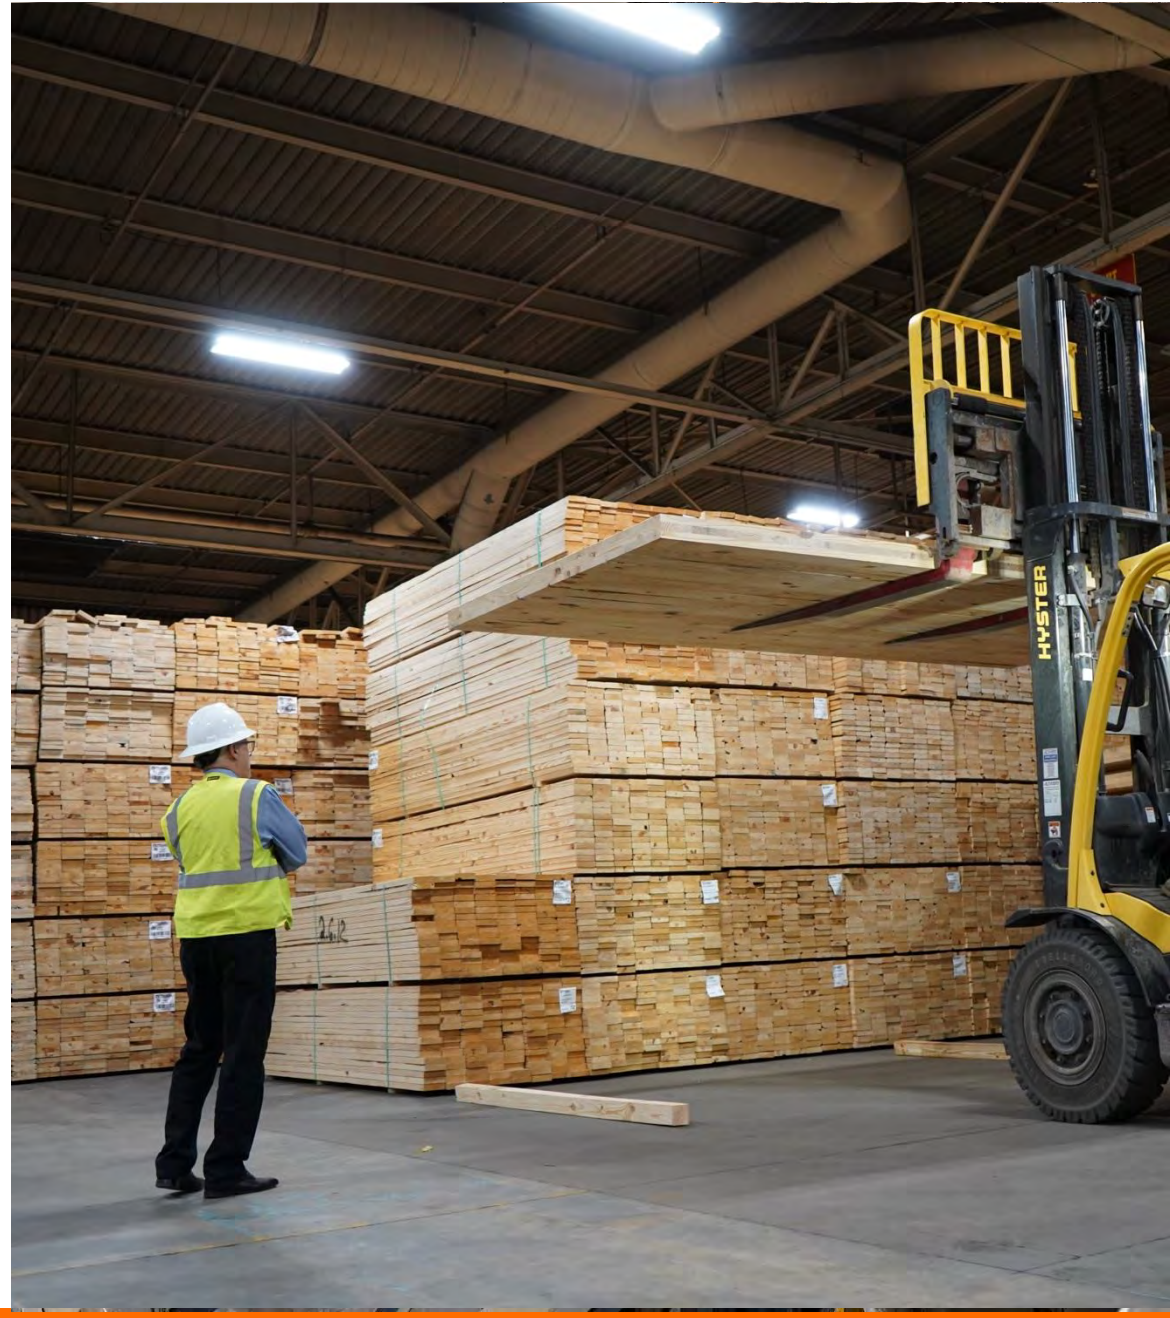

WHY WE DO IT

Certified Sourcing

- Percentage / rolling average (75% at Sterling)
- Certified Sourcing meets green building standards without extra costs of full Chain of Custody segregation.
- Avoids physical segregation logistics, ensuring predictable lead times, stable pricing, and smoother project flow.
- Independent third-party audits enhance trust, enabling confident communication of sustainability achievements

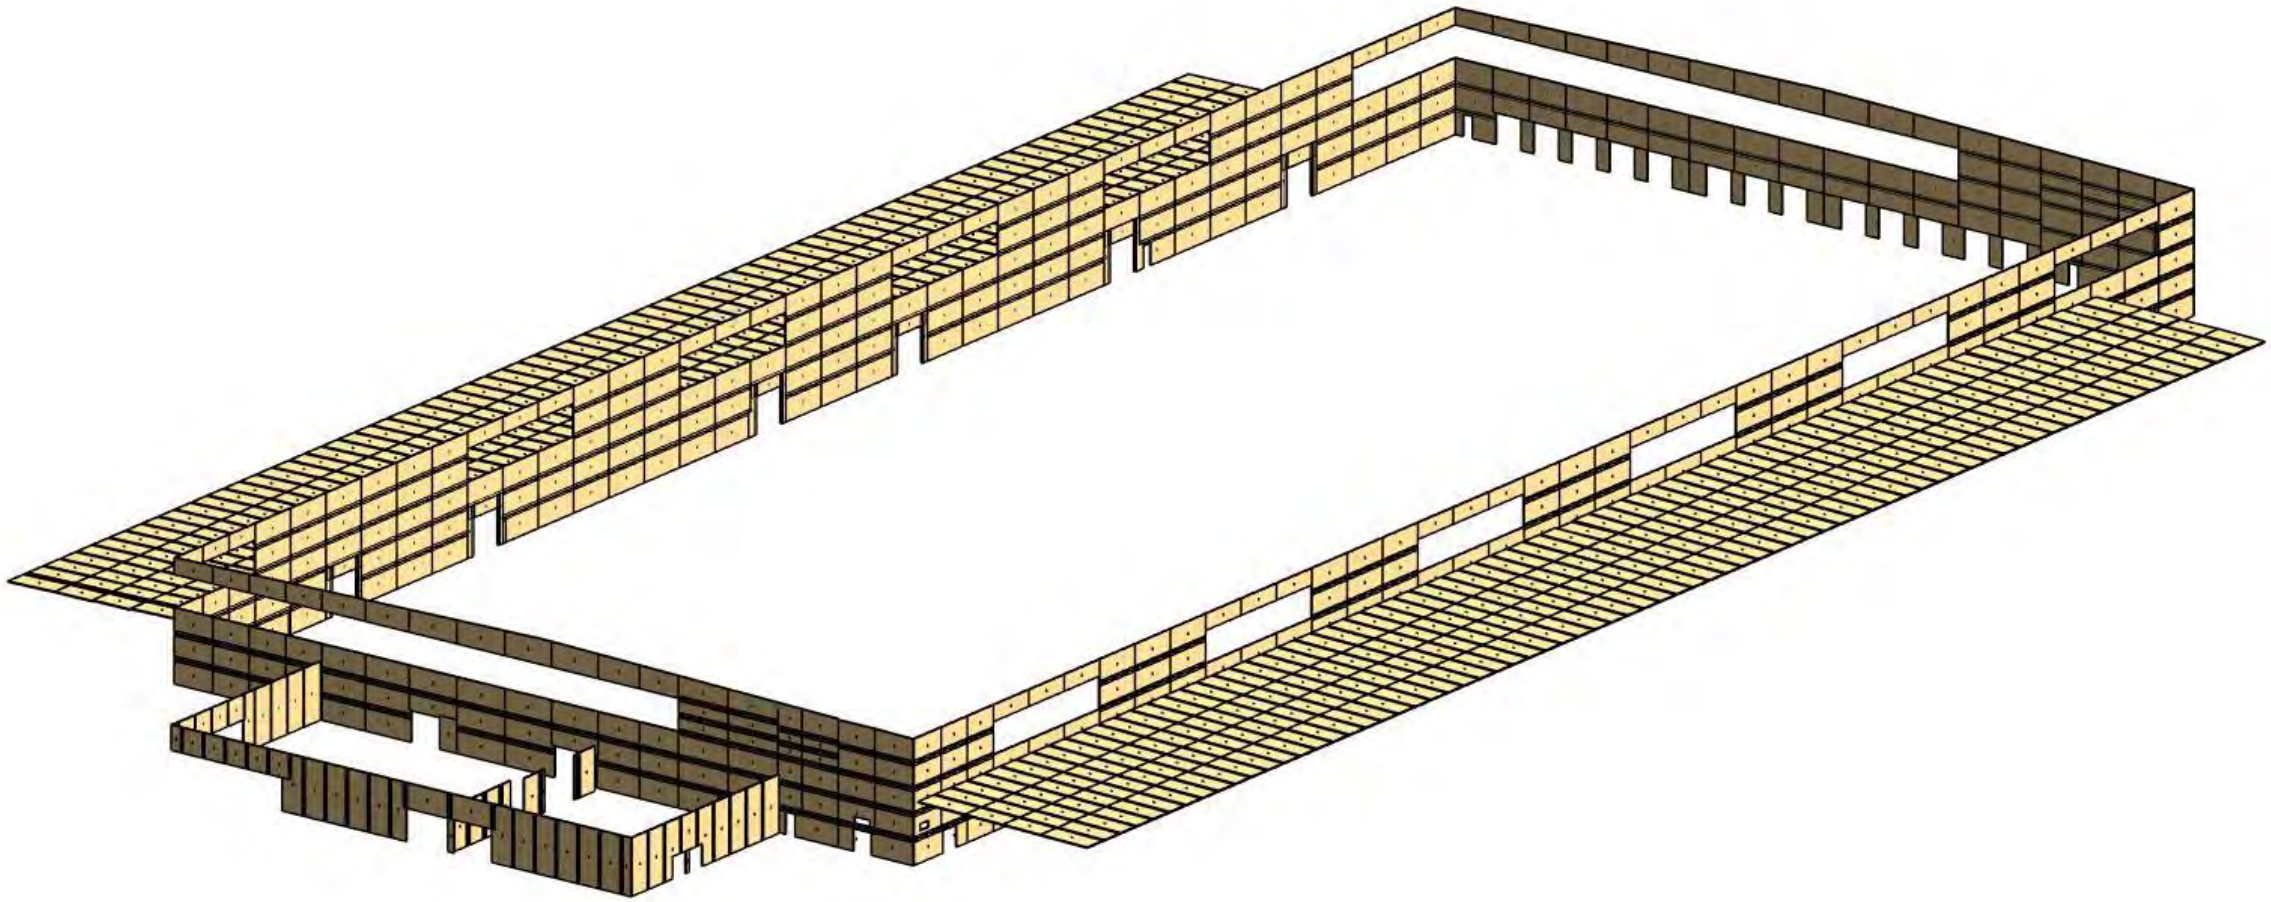

Chain of Custody

- Full traceability of certified wood fiber from forest through manufacturing to finished products
- Supports premium environmental certifications like LEED and Living Building Challenge by verifying certified forest content.
- Credibility is ensured through third-party audits, detailed documentation, and physical tracking systems for robust evidence
